

CLEANERS & RUST PREVENTIVE PRODUCTS SELECTION GUIDE

For 40 years, CONDAT have worked with the Metal forming industrials giving an adapted, high performance, innovative and reassuring offer. CONDAT guarantees high productivity benefits with modern, stable and pleasant products to use.

CLEANERS

Soluble	Chemistry	Application	The "+"
CONDACLEAN LC 1547	Water soluble	Alkaline cleaner ferrous and non ferrous metal	Multipurpose
CONDACLEAN BLUE	Water soluble	Very alkaline cleaner. Use hot	Dirty mark hard to clean 
CONDACLEAN ALLMET	Water soluble	Acid cleaner.	Dirty mark hard to clean

Solvent	PEVO*	Application	The "+"
CONDACLEAN n°2	> 60°C	Cold degreasing, ferrous and non ferrous metal	The best value for money
CONDACLEAN n°6	> 60°C	Cold degreasing, ferrous and non ferrous metal	Odourless

RUST PREVENTIVE PRODUCTS

Soluble	Chemistry	Protection time ***	Coating Thickness	Humidity cabinet **	The "+"
CONDAPROTECT 1271	Soluble	~ 12 months (20%)		20 cycles	Water soluble 

Oil	V@40°C	PEVO*	Protection time ***	Coating Thickness	Humidity cabinet **	The "+"
CONDAPROTECT 278	~ 30 cSt	> 190 °C	~ 6 months	Oily	20 cycles	Interoperation rust preventive 
CONDAPROTECT 1045	~ 120 cSt	150 °C	~ 20 months	Oily	> 40 cycles	The best protection time 

Solvent	V@40°C	PEVO*	Protection time***	Coating thickness	Humidity cabinet **	The "+"
CONDAPROTECT 1377	~ 1,6 cSt	> 70 °C	~ 6 months	2 µm	20 cycles	Dewatering. Interoperation rust preventive
CONDAPROTECT 451	~ 2 cSt	60 °C	~ 18 months	2.3 µm	40 cycles	Dewatering. High performances rust preventive
CONDAPROTECT 1541	~ 3 cSt	> 116°C	~ 6 months	1.3 µm	20 cycles	Dewatering. High flash point.
